

UI/UX DESIGN

Complete Learning Roadmap

Create intuitive product experiences through user research, interaction design, and design systems.

Design principles

Visual hierarchy

Typography basics

Accessibility fundamentals

User research methods

Information architecture

01

Fundamentals

02

Core Concepts

03

Tools and Frameworks

04

Real Projects

05

Advanced Topics

5

Learning Stages

20+

UI/UX

Learning Path Overview

Five progressive stages from fundamentals to production mastery

01

Fundamentals

Design principles • Visual hierarchy • Typography basics • Accessibility fundamentals

02

Core Concepts

User research methods • Information architecture • Interaction patterns • Usability testing

03

Tools and Frameworks

Figma workflows

04

Real Projects

End-to-end feature redesign • Usability benchmark test • Design system component set • A/B tested UX experiment

05

Advanced Topics

Design ops governance • Cross-platform consistency strategy • Advanced accessibility compliance • Outcome-driven design iteration

How to Use This Roadmap

Build and ship first

Complete a small working project in every stage before advancing.

Use official sources

Start with the docs and use secondary resources to reinforce implementation patterns.

Iterate on projects

Refactor earlier work as you learn better architecture, testing, and performance habits.

Stages 01 & 02 - Deep Dive

Fundamentals, core concepts, and architectural foundations

01

Stage 1 - Fundamentals

Estimated: 3-4 weeks | Prerequisites: Basic foundations

Topics

- Design principles
- Visual hierarchy
- Typography basics
- Accessibility fundamentals

Tools & Frameworks

- Design principles
- Visual hierarchy
- Typography basics
- Accessibility fundamentals

Recommended Projects

- UI/UX Design workshop using Design principles
- UI/UX Design portfolio project with Visual hierarchy

Stage 1 Milestone Complete UI/UX Design workshop using Design principles and document the decisions, trade-offs, and validation checks before moving to Stage 2.

02

Stage 2 - Core Concepts

Estimated: 4-5 weeks | Prerequisites: Stage 1 complete

Topics

- User research methods
- Information architecture
- Interaction patterns
- Usability testing

Tools & Frameworks

- User research methods
- Information architecture
- Interaction patterns
- Usability testing

Recommended Projects

- UI/UX Design workshop using User research methods
- UI/UX Design portfolio project with Information architecture

Stage 2 Milestone Complete UI/UX Design workshop using User research methods and document the decisions, trade-offs, and validation checks before moving to Stage 3.

Stages 03 & 04 - Deep Dive

Modern tooling, delivery frameworks, and portfolio projects

03

Stage 3 - Tools and Frameworks

Estimated: 4-6 weeks | Prerequisites: Stage 2 complete

Topics

- Figma workflows
- Design system tooling
- Prototyping tools
- Handoff and collaboration tools

Tools & Frameworks

- Figma workflows

Recommended Projects

- UI/UX Design workshop using Figma workflows
- UI/UX Design portfolio project with Design system tooling

Stage 3 Milestone Complete UI/UX Design workshop using Figma workflows and document the decisions, trade-offs, and validation checks before moving to Stage 4.

04

Stage 4 - Real Projects

Estimated: 6-8 weeks | Prerequisites: Stage 3 complete

Topics

- End-to-end feature redesign
- Usability benchmark test
- Design system component set
- A/B tested UX experiment

Tools & Frameworks

- End-to-end feature redesign
- Usability benchmark test
- Design system component set
- A/B tested UX experiment

Recommended Projects

- UI/UX Design workshop using End-to-end feature redesign
- UI/UX Design portfolio project with Usability benchmark test

Stage 4 Milestone Complete UI/UX Design workshop using End-to-end feature redesign and document the decisions, trade-offs, and validation checks before moving to Stage 5.

Stage 05 - Advanced Topics & Delivery

Performance, architecture, release automation, and production governance

05

Stage 5 - Advanced Topics

Estimated: Ongoing | Industry-grade operating habits

Advanced Focus

- Design ops governance
- Cross-platform consistency strategy
- Advanced accessibility compliance
- Outcome-driven design iteration

CI/CD Pipeline

Stage 5 Milestone

A production-grade ui/ux design workflow with measurable performance, quality, and release confidence.

Performance Budget

Set and track concrete engineering thresholds: startup latency, error budget, throughput, cost efficiency, and deployment confidence.

Self-Assessment Practice Questions

- How would you evaluate readiness for Stage 3 in UI/UX Design?
- Which project best proves Stage 4 competency in UI/UX Design?
- What trade-offs appear in Stage 5 decisions for UI/UX Design?
